

## HK3: Mini Safari Tour (Half Day)

Destination **Phuket**

Duration **Half Day 6 Hours**

### Tour Description

It's fun. It's exciting! And at the same time, it's almost relaxing. Elephant bathing is an experience to remember and great fun for the kids. You can do elephant swimming, mud bathing, showering, scrubbing and feeding as well as a lot of other activities. Monkey performances display not only the humorous behavior, but also their exceptional intelligence. During the 30 minute presentation, the little furry monkeys perform human tasks like riding a tricycle, exercising, hawking trinkets, playing catch, and swimming. They also show off their original trick: picking coconuts. Plenty of monkey-on-your-shoulder audience participation that kids and, you'll have to admit it, adults love.
