

KR7: One Day Tour Kayaking at Borthor + Elephant Trekking

(Full Day)

Destination **Krabi**

Duration **Full Day 9 Hours**

Tour Description

The kayaks are three seat kayaks and at the beginning of the trip the guides will work with the group to assign people to kayaks. They are very easy going, so its not forced in any way, they just try to arrange it so that it will be fun and not too hard work. Single guests will either be matched with a guide or another single.

Ban Bor Thor is an area about a 40-50 minute minibus ride north of Krabi and Ao Nang. The area is a National Park in which there is a complex system of rivers, inlets and limestone caves. This area is one of the earliest sites of human occupation in Thailand and is rich in archeological treasures, artifacts and cave drawings. Many of these caves are only accessible by Kayak.

Elephants have been a part of Krabi's history for longer than tourism. They are incredible creatures, both a symbol of the nation and a talisman for the Thai people. They are fascinating, gentle and remarkably intelligent. Traveling by elephants is a great way to travel without disturbing the wildlife and birds and you'll get to see and hear more than you would with any other form of transport.

Schedule & Trip
